

Sustainability Management Plan

Zeoplant L.L.C. recognizes that our business has an important role to play in protecting and enhancing the environment. We also recognize that we have a social commitment to the local and regional community.

Our impacts on the environment are direct (e.g. use of transport, energy and water) and indirect (such as the decisions we make on behalf of our clients).

We respect and protect the environment.

We have a main board member with specific environmental responsibility.

We will:

- 🌱 Comply with the law and, if possible, exceed minimum legal requirements
- 🌱 Raise environmental awareness amongst our people and encourage them to help us improve our environmental performance
- 🌱 Invite our staff, clients and business partners to participate in our efforts to protect and enhance the environment
- 🌱 Use natural resources efficiently
- 🌱 Encourage our managing partners to follow our environmental policies
- 🌱 Encourage clients and contractors to minimize their environmental impact
- 🌱 Conform to international standards
- 🌱 Provide clients with the best environmental choices to help them manage and reduce their environmental impact especially in water consumption
- 🌱 Play an active role in improving environmental awareness and performance within our industry
- 🌱 Use environmental friendly packaging
- 🌱 Favor certified or ecofriendly suppliers
- 🌱 Monitor our electricity and water consumption
- 🌱 Monitor health and safety aspects in our production plant
- 🌱 Ensure high quality material standards
- 🌱 Participate in sustainability conferences in our industry
- 🌱 Cooperate with environmental institutions
- 🌱 Review this policy annually
